

NITHIN MK

Senior Software Engineer | Cloud-Native & Serverless Specialist
Bengaluru, India (Open to Relocation) | +91 9113683980
nithinmk26@gmail.com | linkedin.com/in/nithin-mk26

PROFESSIONAL SUMMARY

Senior Software Engineer with 6.5+ years of experience in building scalable, cloud-native microservices using Java (8-17) and Spring Boot. Expert in designing and deploying robust, serverless architectures on AWS, including Lambda, Step Functions, and Aurora. Proven track record across automotive, telecom, and e-commerce domains with a strong focus on event-driven systems, performance optimization, and CI/CD automation.

TECHNICAL SKILLS

Languages:	Java (8, 11, 17), Python, SQL, JavaScript
Backend & API:	Spring Boot, Microservices, REST APIs, Kafka, Hibernate/JPA
Cloud (AWS):	Lambda, S3, Aurora, DynamoDB, Step Functions, EventBridge, Glue, Athena
DevOps & Tools:	Docker, Kubernetes, GitHub Actions, Jenkins, Git, JIRA
Testing & Quality:	JUnit, Mockito, Cucumber (BDD), SonarQube, Black Duck
Monitoring:	AWS CloudWatch, Datadog, ELK Stack

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Harman (Mercedes-Benz)

Mar 2023 - Present

- Architectural Migration:** Spearheaded the migration from Kubernetes to serverless AWS (Lambda, S3, Step Functions), enhancing scalability and reducing operational overhead.
- Performance Engineering:** Tuned JPA/Hibernate queries, resulting in a 20% reduction in execution time and improved throughput for AWS Aurora.
- System Transformation:** Designed and developed backend services using Java and Spring Boot to digitize complex vehicle documentation for infotainment systems.
- Technical Leadership:** Mentored junior developers, conducted code walkthroughs, and led sprint-level technical planning and task breakdown.
- CI/CD & Security:** Built end-to-end deployment pipelines using GitHub Actions with integrated security scanning via Black Duck and Sonar.

Senior Engineer | Solera (DealerSocket)

Sep 2022 - Mar 2023

- Microservices Design:** Developed scalable backend modules for vehicle claims processing and inventory management using Java 8 and Spring Boot.
- Global Collaboration:** Partnered directly with U.S.-based product owners and architects to translate business requirements into technical microservice designs.
- API Integration:** Built and integrated secure REST APIs, ensuring optimized performance and reliable cross-system communication.

Associate Consultant | Virtusa (British Telecom, UK)

Jan 2022 - Sep 2022

- Infrastructure Solutions:** Engineered microservices for tracking pole installation jobs, integrating with BT internal systems and UK government APIs.
- Containerization:** Gained deep hands-on experience with Docker and Kubernetes for container orchestration and deployment from scratch.
- Frontend Contribution:** Designed intuitive frontend pages to allow engineers to initiate and update job statuses in real-time.

Software Engineer | Mindtree

Oct 2019 - Jan 2022

- Event-Driven Microservices: Developed asynchronous communication systems using Apache Kafka to connect order processing and inventory modules.
- Data Migration & ETL: Orchestrated secure migration of 8M+ records using AWS Glue, Athena, S3, and Informatica.
- E-commerce Development: Built Java Spring Boot microservices for order, voucher, and campaign management for a major hotel group in Dubai.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

2019

Visvesvaraya Technological University (VTU), Karnataka, India

LANGUAGES

English: Professional Working Proficiency

Kannada: Native Proficiency

CERTIFICATIONS

Building Scalable Java Microservices with Spring Boot and Spring Cloud
